DSS releases its agenda and Webcast information for the DoD Security Managers' Forum, 12-13 August 2009

The Security Education, Training and Awareness (SETA) Directorate of the Defense Security Service (DSS) released the agenda for the Department of Defense (DoD) Security Managers' Forum. The forum will be held in the new Pentagon Auditorium. The agenda reflects current and emerging security topics of interest to security managers throughout DoD. A more detailed agenda with specific topics for each security discipline and special areas will be released later this month. The agenda will be sent in a SETA Flash and also posted on the Academy Web site.

DSS is sponsoring the forum. Registration is still open but seating is limited and available to U.S. military and DoD civilian employees only. Attendance is subject to approval. Register through the DSS Academy ENROL system at <http://dssa.dss.mil/seta/enrol/register4campus.html>.

For personnel who cannot attend in person, the forum will be available through a Webcast at <http://hqdamedia.hqda.pentagon.mil/>. To access, go to the live presentations section and select the link: Navigating Change – Charting a Course in DoD Security. The link will be open the week before the forum. We urge you to visit the site a week before the forum to retrieve the archived presentations as well as test your ability to receive the feed. If you are unable to view the live presentations, the event will be archived and available for viewing at this site. If you have difficulties with or questions about the Headquarters Department of the Army (HQDA) Media Center site, contact the IMCEN Help Desk at (703) 693-4337 or at IMCENHelpDesk@hqda.army.mil.

For additional information, comments, or questions regarding the DoD Security Managers' Forum, contact DoDForum@dss.mil.

DSS Academy announces Changes in the FSO Curriculum

The "Protecting Secret and Confidential Documents (PSCD)" online course has been replaced by the following four Web-based courses:

1. Safeguarding Classified Information in the NISP
2. Derivative Classification
3. Marking Classified Information
4. Transmission and Transportation for Industry

These four shorter topic-specific courses cover in less time the material from PSCD more thoroughly and provide final examinations that ensure mastery of each topic. PSCD was removed from ENROL for registration purposes at the end of June. Students currently enrolled in PSCD will be given until the end of September to finish the course and examination. Facility Security Officers (FSOs) who have completed the course will not be required to take the new courses to meet NISPOM paragraph 3-102 requirements but may take the new courses if they choose. New FSOs at possessing facilities who have not taken PSCD should be directed to complete the new courses. To register for the new FSO Curriculum, go to ENROL at https://enrol.dss.mil/enrol/lang-en/SYS_login.asp. Read the "All Aboard" feature in this month's newsletter explaining how to register for a curricula rather than an individual course. To learn more about the FSO Curriculum, go to http://dssa.dss.mil/seta/fso_curriculum_descrip.html.

Navigating Change:

Charting a New Course in DoD Security Pentagon Auditorium

August 12, 2009

FOCUS ON SECURITY

SECURITY EDUCATION, TRAINING & AWARENESS (SETA)

Under Construction

- **Introduction to Personnel Security Course.**

The course introduces participants to the DoD Personnel Security Program.

- **How to Wrap a Package Containing Classified Material Video.**

The video demonstrates how to correctly wrap a package containing classified material.

- **Glossary of Security Terms, Definitions and Acronym Book.**

The job aid lists security glossary terms, definitions and acronyms from various security disciplines.

- **Army Foreign Disclosure Contact Officer Certification Curriculum.**

The course provides basic foreign disclosure training and certification to designated Army Contact Officers.

- **Army Foreign Disclosure Officer Certification Curriculum.**

The course provides basic foreign disclosure training and certification to DA personnel entrusted with the authority to disclose classified military information to foreign governments, international organizations, and coalition partners.

All Aboard

Registering for Curriculum in ENROL:

- When registering for a specific curriculum within ENROL, login at https://enrol.dss.mil/enrol/lang-default/SYS_login.asp, go to Curricula and select a specific curriculum. A list of all the courses associated with the curriculum will appear. You will notice a box located next to each course.
- Boxes that are grayed out could indicate two things:
 1. You already registered for that course/examination earlier
 2. You will be registered for the course/examination because the course is required as part of the curriculum.
- Boxes that are **NOT** grayed out indicate that you have the option of checking the box for registration. If the warning symbol appears after you check the box (⚠), please click on the warning symbol. It will display a message describing the registration issue.

NOTE: You do not have to check the box next to the course unless you want to re-take this course and/or examination.

- Once you have checked all appropriate courses/examinations, hit the submit button to finish the registration process. Registering for a curriculum rather than a single course saves you time and ensures you know all of the required and optional courses at the start.

Don't forget to click on the launch button (➡) to start the course.
